

INSTITUTIONAL DISTINCTIVENESS 2022-2023

Institutional distinctiveness refers to the unique characteristics and qualities that distinguish an educational institution from others in terms of its mission, vision, values, academic programs and support services. The vision our college is rooted in the foresight of its visionary founder. Over the years, the institution has remained steadfast in its commitment to its vision and mission that serves as a guiding principle for faculty and students, inspiring them to strive for excellence. As education is the key to build a better nation, we provide our students the tools and knowledge to succeed in their chosen careers. Our university establishes themes and objectives for our students to accomplish through distinct activities both inside and outside the college each year. So we want to equip our future teachers for success in all spheres of life this academic year too. The college organised Gender sensitisation programme to make aware the students about gender equality and rights.

AWARENESS CLASS

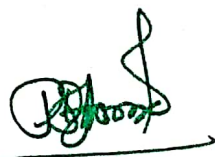

Topic: Gender Sensitisation

The Gender Justice Forum and IQAC of NSS Training College in collaboration with Kudumbashree District Mission, Pathanamthitta had organized one day training programme for first year B.Ed students on August 26, 2022. The training was on the topic 'Gender Sensitization'.

Gender sensitization presides over gender sensitivity, the modification of behaviour by raising awareness of gender equality concerns can be achieved by conducting various sensitization campaigns, workshops, training programmes, etc.

Gender Sensitisation training programme for prospective teachers plays an important role in the development and growth of school students because they are the stalwarts for the rest of the society. The objectives of the training programme was to sensitize student teachers on the effects of gender discrimination, familiarise them of constitutional safeguards for gender equality, train on socio-economic status of women, make them understand implicit gender based discrimination against women in a lifecycle approach, and to recognise the constitutional provisions and laws relating to gender issues in India.. The ideas were discussed centering on activities like debate, discussion, and role play. The training is very informative and helpful for the student teachers to acquire the idea about gender and sex, and the need of gender equality in current society.
